Community-Selected Priority Projects

As part of INSPIRE, the Department of Planning is funding community-selected priority projects. These projects, identified through the INSPIRE planning process, create or improve places for residents to play, participate in healthy activities, and socialize with each other.

The Department of Planning works with residents and neighborhood organizations as well as City agencies, BOPA, and nonprofit organizations. These are the projects identified to date:

INSPIRE + Public Art

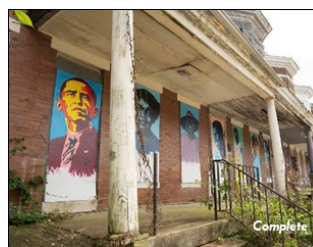

INSPIRE partners with the Baltimore Office of Promotion & the Arts (BOPA) so public art can be integrated into community projects. One way we help connect communities and artists is through Calls for Artists. Another way is through the Art @ Work program, which provides arts-based employment opportunities for youth. This mural artist apprenticeship program hires YouthWorks participants to work under teaching and intern artists. The youth also participate in leadership training and other professional development workshops. Art @ Work was developed by BOPA, the Baltimore City YouthWorks initiative, and Jubilee Arts.

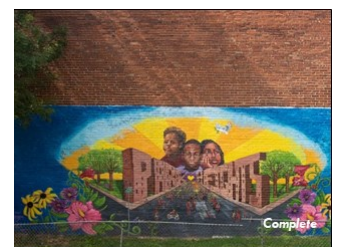

Park Heights
Callowhill Aquatic Center
